GENDER IDENTITY

In addition to sex, PharmCAS began to capture gender identity for the first time in the 2021-2022 admission cycle. The optional item on the PharmCAS application stated, *“We understand that your sex may not necessarily be binary. How do you describe your current gender identity? Select all that apply.”* The response options were: Female/Woman, Male/Man, Non-Binary/Third gender, Trans female/Trans woman, Trans male/Trans man, or Prefer to self-describe.

RACE/ETHNICITY

During the 2003-2004 (first) admissions cycle, applicants could select only one racial or ethnic category on the PharmCAS application. Applicants in the 2009-10 cycle could select one or more racial or ethnic categories, and the “Hispanic or Latino” category was moved to a separate field. The “other” racial and ethnic category was eliminated in the 2009-2010 cycle.

Programs in PharmCAS can view all of the racial and ethnic designations for each application received. For the purpose of this report only, applicants with multiple racial and ethnic categories selected are categorized as “Multiple”, unless otherwise indicated. Additional tables in this report reflect the total number of racial and ethnicity designations.

The number of “Hispanic/Latino” applicants in the following figures reflects all applicants who self-identified as Hispanic or Latino, regardless of race selected. There were **1,201** applicants who selected YES to the “race_hispanic” field and YES to at least one race field (as compared to 1,351 in the previous cycle). There were **323** applicants who selected YES to the “race_hispanic” field only and did not select a race field (as compared to 402 in the previous cycle.)

Per the application, the “American Indian” category is inclusive of individuals who identify as “Alaska Native”. “Native Hawaiian” is inclusive of individuals who identify as “Other Pacific Islander”.

DISADVANTAGED STATUS

Beginning in the 2019-2020 admissions cycle, PharmCAS used the socioeconomic status (SES) of an applicant's parents or guardians to produce Education Occupation (EO) indicator scores. The EO indicator is derived from an applicant's parental/guardian education and occupation information. Four education levels and two aggregate groups of occupations provide the schema that is used to determine the EO indicator for each parent/guardian. The lowest socioeconomic group is EO-2 and the highest is EO-6. If the Parental Education and/or Occupation Data for a parent is not reported, then no EO score is calculated. Additional information about the EO indicator is available in the PharmCAS School Manual.

- EO 6 Very High SES
- EO 5 High SES
- EO 4 Moderate SES
- EO 3 Low SES
- EO 2 Very Low SES

| | # | % | # | % |

** Only those applicants with one or more parental/guardian EO indicator scores calculated by PharmCAS were included in the calculations. If PharmCAS calculated more than one parental/guardian EO indicator per applicant, the scores were averaged.*

**Data regarding environmentally disadvantaged applicants are based on self-reported responses in the PharmCAS application. Applicants in PharmCAS could select one or more disadvantaged statuses. The disadvantaged categories are not mutually exclusive. Therefore, applicants may be represented in more than one category. Applicants were not required to use search tools to determine if they actually met the federal government's definition of disadvantaged (e.g., geographic location of the applicants high school being in a medically underserved area/population (MUA/P) or health professions shortage area (HPSA) data related to their high schools college bound rate).*

PERMANENT STATE OF RESIDENCY

Report reflects the number of applicants per permanent state/province of residency using the State field in the Permanent Address section of the PharmCAS application. The AACP Profile of Pharmacy Students (PPS) report is populated by the Application Pool Survey report, which calculates the total number of in-state applicants per school using the Legal State of Residence field found in the Citizenship section of the application.

GRADE POINT AVERAGES (GPAS)

PharmCAS calculates standardized grade point averages (GPAs) to help participating programs evaluate applicants using uniform and consistent criteria, regardless of different institutional transcript policies. PharmCAS GPAs are automatically generated by the system and are likely to be different from those calculated by the colleges and universities attended due to the grade standardization process. PharmCAS includes initial and repeated coursework in its GPA calculations using a 4.0 semester-based scale.

PHARMCAS FEE WAIVERS

PharmCAS offers a limited number of application fee waivers to financially disadvantaged applicants. The annual AACP fee waiver fund was increased from \$79,000 in the 2019-2020 admissions cycle to \$100,000 in the 2020-2021 and 2021-2022 cycles. AACP could support a maximum of 571 eligible applicants in the 2020-2021 and 2021-2022 cycles, as compared to 451 in the 2019-2020 cycle.

PharmCAS grants application fee waivers to financially disadvantaged applicants on a first-come, first-serve basis. Fee waiver decisions are based on the applicant's income, or parent's income if claimed as a dependent, as reported on the most recent tax return. PharmCAS grants waivers to those applicants with earnings that are at or below the U.S. Department of Health and Human Services poverty guidelines. Applicants with approved waivers may apply to a maximum of one PharmCAS program for free, and may choose to apply to additional program for an incremental fee of \$55 for each. A fee waiver was denied or voided if the applicant did not follow the fee waiver instructions, exceeded the income threshold, or did not submit the application within 14 days after the waiver was approved.

Fee Waiver Statuses:

- **Requested:** Fee waiver request was received after the review process had closed.
- **Declined:** Fee waiver request was declined because applicant was ineligible based on income.
- **Redeemed/Awarded:** Fee waiver was approved and processed.
- **Expired/Not Redeemed:** Fee waiver was approved but not redeemed within 14 days.

**Disadvantaged categories in this table are mutually exclusive. Disadvantaged status is applicant-reported and not verified, nor considered in the fee waiver review process. The Education Occupation (EO) indicator scores are not reflected in this table, nor considered in the fee waiver review process. Granted includes all fee waivers that were redeemed/awarded. Not granted includes all fee waivers that were declined, requested, and expired.*

P1 PHARM.D. SEATS

Target seats refer to the estimated number of entering students who are expected begin the first professional year of the Pharm.D. program as budgeted by the institution or the CEO dean of the college or school of pharmacy before the new class has enrolled. **Maximum** seats refer to the largest number of entering students in the first professional year of the Pharm.D. program that the college or school of pharmacy could accommodate based on facilities, faculty, and other resources. Institutions were instructed to report all P1 seats available (target and maximum) per entering class, regardless of whether they were filled by or reserved for early assurance or other special students. Seats filled data for the 2022 entering class will be available in summer 2023.

Data for the 2022, 2021, and 2020 entering classes are based on school-reported numbers in the PharmCAS School Directory. Data for the 2019 and 2018 entering classes are based on school-reported data captured in two previous AACP Seat Surveys. AACP cannot determine the number of individual applicants who applied to non-PharmCAS schools.
